Limited to 50 people. Priority will be given to practicing veterinarians. If capacity is exceeded, veterinarians will be selected by order of application arrival.

An "advanced" version of the "Poultry Medicine Workshops" held in 2016 and 2017. The purpose is to provide continuing education in poultry medicine for small/mixed/large animal practitioners who see, or desire to see, poultry as part of their practice. The topics discussed will add additional knowledge and tools for those who have attended previous workshops. However, the information presented and the workshop is still suitable for those who have not yet participated.
